

Would you like to become a Pioneer?

We are SafeLives, the UK-wide charity dedicated to ending domestic abuse, for everyone and for good.

If you are interested in joining our Pioneer community, we would love to hear from you! We are looking for three to four Pioneers from a range of backgrounds.

Through my work with SafeLives I have gained a greater awareness of the extent of what I've been through and how to move beyond it, our work has helped me recognise and hold true to my values, especially in the face of adversity.

SafeLives Pioneer

In order to amplify the breadth of voice and experience from across the UK, we are particularly interested in hearing from you if you identify as LGBTQ+ or are from a Black, Asian or racially minoritised background, as we recognise the structural barriers you face and that your voices are often not given the same opportunities to be heard.

Pioneers are people who have been personally impacted by domestic abuse who are looking for an opportunity to use this experience as a tool to influence change, with and for all survivors of domestic abuse.

We recognise that people with lived experience are experts who must be placed at the heart and start of all decisions to improve the response to domestic abuse.

As a Pioneer you define your priorities and we will support you to ensure your involvement is as creative and innovative as you are!
